

2021 pricing and
info

Welcome!

I am so flattered you are reading this! I created this to hopefully answer all your questions you may have when it comes to a newborn session with Casandra Lorraine Photography.

This includes-
Info about me (Casandra)
Lots of pretty photos
What to expect
When to book
& Lots of other bits and pieces

I photograph your baby in a way they will never be again..... Brand new

Meet Casandra

I'm the owner, photographer and professional baby snuggler at Casandra Lorraine Photography.

I have been specializing in newborn photography for a few years now, and have poured every ounce of my heart and soul into perfecting my craft.

I have photographed hundred of babies to date and have won numerous awards for my images.

I am based in Stafford, but I operate a mobile studio and I bring everything to you!

I am 100% a germaphobe and take pride in being healthy to meet/photograph babies.

I have ALWAYS loved photography and babies, and having them together is a blessing. The fact I get to call this my job is such a gift.

Sibling photos can be quite the challenge. I do everything in my power to get siblings to cooperate. I sing, make animal noises and sometime blow bubbles! Anything for the perfect shot

The session fee

Newborn session fee \$350

The session fee includes the time and talent of the artist, your phone consultation, customizing and styling of your session, access to my high end luxury studio props, and my studio closet, your session time, and my travel.

I limit the amount of sessions I take on per month, to ensure the highest quality of product and service to you, so it is recommended that you book early in your pregnancy so that you don't miss out!

(Your session fee is a separate payment to your packages and does not include any product or digitals)

or espresso)

16x20

300

20x30

500

Newborn sessions happen from 6-15 days old. Being brand new, babies are still so curly- this is how we get all those gorgeous curled up poses. They also sleep very well (if we're lucky!) and aren't as sensitive to noise and touch.

Not only do I capture
gorgeous set ups of your
baby, It's extremely
important to me to
capture the smallest
details. Little toes,
eyelashes, lips. These are
all things I want you to
remember about your
baby.

FAQ

Q- How/when do we pay for our newborn session?

A - A session fee of \$350 is due upon booking.
Your session payment is due the day of your session
Printed products may be paid for when you collect your gallery

Q- Do we need to bring outfits for the baby?

A- No! I have everything you need.

Q- How long until we can see our photos?

A- I always upload a sneak peek within a few days of your session.
You can then expect an online proofing gallery within 1-3 weeks

What to expect

The first few days of a baby's life are so magical and beautiful. Being able to capture those moments for you is such an honor. I thought it might be helpful to write down how parents play an important role to a successful, pleasant and enjoyable experience for a successful newborn shoot.

Let's Pencil You In!

I highly recommend booking your newborn session as early as three months prior to your approximate delivery date. That gives me enough time fully customize a newborn session just for you! If anything else is needed such as a coordinating headband or matching outfit, I will have enough time to research and purchase any additional items needed.

Birth Day!YAY!!!

I know you are just excited as I am to *capture those little tiny fingers, toes and sweet little details while it lasts!* **Once baby arrives, please contact me right away** to schedule a definite date and time for your babies newborn session. Sessions are typically scheduled 2 to 5 days, following your release from the hospital, but can be scheduled 5-21 days after. When scheduling the session, the earlier the better.

Younger newborns tend to do very well in the studio, opposed to a baby that is 18-21 days old. They tend not to wake up frequently and as easily when getting them posed for photos. A mere 48 hours in a newborns life is very crucial when prepping them for their session. I have witnessed many, many times after the 10 day mark, newborns have discovered the art of stretching! Once that happens...they won't let us curl them up in the cute little newborn poses without a fight!

Thank you so much

I know you had unlimited options to choose from when selecting a newborn photographer. It means the world to me that you have considered me to document one of the most exciting and joyous times of your lives.
